EZ-MAX® by Krausz Wide Range Repair Solution

EZ-MAX. MAXIMUM RANGE. MINIMUM EFFORT.

Krausz EZ-MAX® wide-range clamps repair holes and longitudinal cracks in water and wastewater pipes. Their unique design substantially reduces inventory and on-vehicle stock as one Krausz EZ-MAX clamp can replace up to three standard competitor's clamps. Highly reliable and easy to install, EZ-MAX is both extremely efficient and very cost effective. The patented bolt holder enables easy installation by one person working alone.

THE EZ-MAX®

Easy to use

- Lightweight, with a single top-facing locking mechanism (clamps up to 12") or two top-facing locking mechanisms (14" - 24").
- Unique, patented bolt holder enables one-person installation.
- No need to re-torque bolts like other clamps in the market.
- Can be slide over the pipe before final positioning and closing.

Durable and long-life design

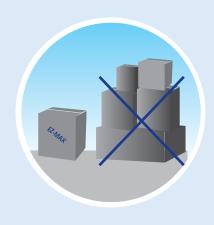

- Monoblock design delivers fortified strength and enhanced flexibility.
- All metal parts are made from 100% stainless steel.
- EZ-MAX's single-fold design eliminates welding and fortifies corrosion resistance.
- Gasket is securely connected to the body of the clamp with insulated bolts, not glue.

Extreme performance

- Mat-type gasket with pressure ring sealing capabilities for superior sealing.
- Patented reinforced material embedded on back of gasket to prevent creeping and loss of torque.
- Advanced Molecular Anti-Galling (MAG) unique dry treatment process on nuts and bolts, based on embedded zinc, prevents galling and enables repeated bolt tightening; it also eliminates the need for grease, preventing dust and dirt build-up.

FAMILY FEATURES

Substantially reduces inventory

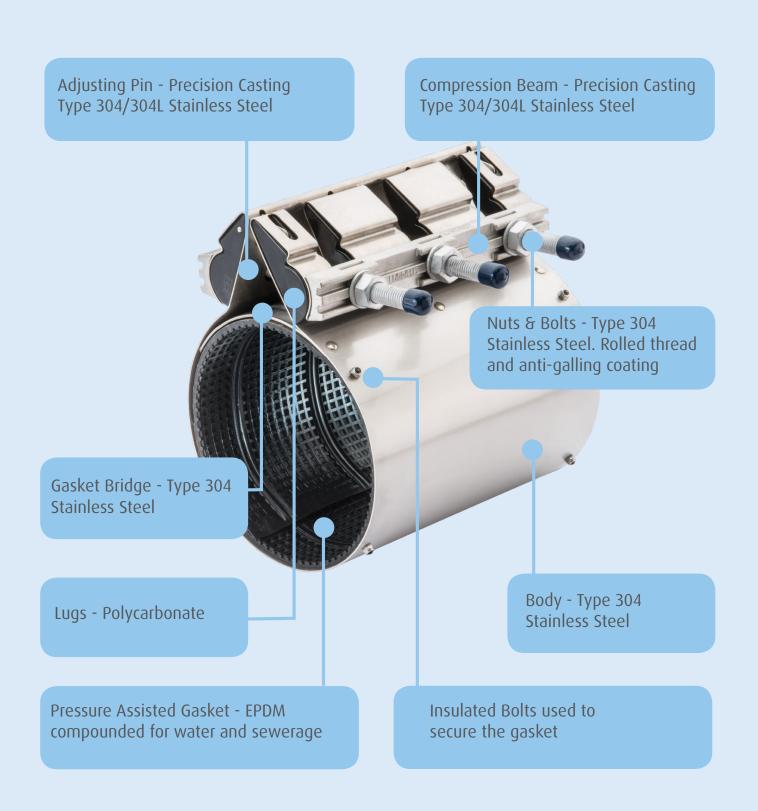

- Extended working range, up to double the market standard.
- EZ-MAX is a wide-range clamp and it can replace up to 3 standard clamps.

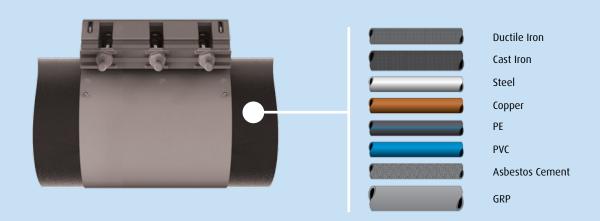

THE EZ-MAX®

EZ-MAX Product information

- 1. EZ-MAX meets or exceeds all specifications AWWA C230, NSF-61, and NSF-372.
- 2. Body: AISI 304 Stainless Steel.
- 3. Pressure Assisted Gasket: EPDM compounded for water and sewerage, meets international standards for contact with drinking water NSF-61 and NSF-372.
- 4. Gasket bridge: AISI 304 Stainless Steel.
- 5. Compression beam: AISI 304 Casting (ASTM-A351-CF8).
- 6. Lugs: Polycarbonate.
- 7. Bolts & Nuts: AISI 304 Stainless Steel. Rolled thread and anti-galling coating.
- 8. Working pressure: 150 PSI.
- 9. Rated pressure: 225 PSI.
- 10. Working temperature: -20°F up to +180°F.
